CHAUTAUQU MEETING ON THURSDAY EVENING

Attention of the guarantors of the Wainwright Chautauqu is drawn to the fact that there will be a meeting in the Council Chambers on Thursday evening at 8 o'clock. This is an important meeting and as considerable responsibility rests upon the guarantors, it is hoped that every one will turn out.

FARMERS MAY KEEP FLOUR BUT MUST REPORT AMOUNT

Dean E. A. Howes, honorary secretary of the Alberta branch of the Canada food board at Edmonton, has received from Ottawa important amendments to the recent order of the board (No. 31 issued on April 25), having to do with the holding of flour.

The amendments are in the form of two additional subsections to section No. 1, reading as follows:

(c) A bona fide farmer shall be permitted to hold, subject to the order of the Canada food board, the amount of flour made wholly or in part from wheat he may have in his possession in excess of the amount prescribed by the above order (No. 31) if on or before June 15, 1918 he reports to the miller or dealer from whom it was purchased or by whom it was manufactured the excess amount held by him. It shall then be the duty of such miller or dealer to report all such holdings to the Canada food board on forms to be supplied and at such times as he is directed.

(d) Any person holding or having in his possession not more than 25 pounds of flour made wholly or in part from wheat, or who holds or has in his possession at the date hereof part only of one original package in which such flour was purchased, in which the amount exceeds 25 pounds, shall be permitted to hold the same.

"This relieves a somewhat serious situation so far as the farmers are concerned in this province, many of whom had laid in large supplies.

COW PROBLEM SOLVED AT LAST

The cow problem which has for the past few months been occupying the minds of the citizens of Wainwright, has now, we hope, been settled. Cow owners have decided to leave the matter in the hands of Mr. Brown and Mr. Cook to furnish pasture enough to accommodate all animals owned and kept in town. Two crews of men are now at work early and late in the morning and it is expected that all will be ready for the first of June. Arrangements can be made to take your cow from your premises in the morning and return her to your stable in the evening with the above named persons.

HIGH SCHOOL EXAMINATIONS WILL BE HELD JUNE 17-26

The Department of Education of Alberta advises that the departmental examinations for grades 8, 9, 10, 11 and 12 will be held this year on June 17, 18, 19, 20, 21, 22, 23 and 24 at Wainwright and Chauvin.

The department will supply the required foolscap, drawing paper, ink and squared paper, but candidates shall provide themselves with rulers, compasses, penholders, etc. Candidates writing on the examinations in drawing must provide themselves with a soft eraser, a good drawing pencil, ruler, India ink, water colors and suitable brush or brushes. For the work in water color a supply of water and conveniences for cleansing the brushes should be available.

Candidates who have not already selected one of the above centres should advise the board at once at which centre they desire to write.

The examinations for the First and Second year commercial course will be conducted at Calgary, Edmonton, Lethbridge and Medicine Hat, during the same period as the grade examinations.

Mr. E. E. Conner is in town looking up a suitable location for a sheep ranch. Mr. Conner has from the Thousand Islands, Ontario. He expects to be a permanent resident

DETERMINED EFFORT WILL BE MADE BY BOARD OF TRADE TO HAVE RURAL TELEPHONE LINES

Can we have rural telephones in this district this year? This is the question paramount in the aims of the Board of Trade. The working out of a scheme to accomplish this end is the endeavor of both the citizens of the town and the rural community surrounding Wainwright. The Board of Trade have made a start, now it remains to see the project to a successful conclusion.

The first part of the evening of the tenth annual meeting held on Tuesday evening was taken up with a review of the work of the year by the president, Mr. H. P. May. After the president's address the following officers were elected for the ensuing year:

President, H. P. May.
1st Vice President, D. O. Brown.
2nd Vice President, Mr. Rowman.
3rd Vice President, Mr. Welch.
Secretary, F. E. Chandler.
The number of members necessary to form an executive committee caused

quite a discussion. Some arguments were put forth substantiating the claim that too many members on the executive committee resulted in lack of responsibility of any making it difficult to form a quorum at any executive meeting. On the other hand some advocated a larger number in order that more interest would be taken and those wishing to have a voice in executive meetings would be able to have the opportunity. The result of all was a motion making the executive committee to consist of the officers and three members, which was carried.

The members for the executive were elected Dr. Little, Mr. Gerson, and H. V. Pawling.

The meeting then opened up the discussion of rural phones. The president gave a report of the progress made by the board of trade during the year and the result of their investigations.

The difficulty in previous years with installing phones has been the great expense of construction, the government having set a certain standard in which all phone systems should be operated, if it was eventually the idea of turning the system over to the government at some later date. This year, however, the legislature at the last session passed an act giving permission under certain regulations to farmers' societies, companies or any corporate body of men to erect and maintain a telephone system on a much cheaper basis than that of the government standard.

The provincial government has signified their willingness to provide accommodation for a central office in Wainwright at a yearly rental in ratio to the number of subscribers, no definite amount being set.

The cheapest phone box that can be procured at present is estimated at \$12.75. This is merely for the phone itself and does not include installation.

In the construction work it was estimated that 18 foot poles would be required at Wainwright at \$1.00 each. This would be a fair grade of pole, a cheaper kind, tamarac, would lessen this cost. The cost of putting in the poles will depend on whether the farmers are willing to help in their erection. Should they consent to put up their own poles, it would minimize the construction cost considerably.

A survey line was estimated on, running east of town and came to somewhere around \$66.30, which was based on the fact that twenty-three subscribers would take the service. The construction cost would amount to approximately \$47 for the cheaper phone for each man, and a little higher for a better quality phone. In addition to this each man would be required to bear the cost of his own phone box.

The system in use in the Edmonton district was explained and would likely prove feasible. They have organized a company and have sold shares, each subscriber being a shareholder. The value of each share is \$100 and was payable \$40 cash and the balance in negotiable notes, covering a period of three years. The yearly upkeep cost of this system only amounts to approximately \$60. The organization has a membership of twenty subscribers.

The board of trade have appointed a committee to make further investigations and when full estimates are secured, a general meeting of the town and county and local improvement districts, will be called in the near future and the whole question discussed in detail.

The fee for membership to the board of trade was set at \$1.00 per year as before.

A motion was made and carried that a monthly meeting of the members as a whole be held.

A vote of thanks was rendered to the retiring secretary for his work during the past year.

SALE OF POTATOES ACT PASSED AT OTTAWA

OTTAWA, May 21.—At the afternoon sitting of the House, further consideration was given in committee to the act to amend the Inspection and Sale act in regard to fruit and potatoes.

The bill was finally reported from committee with one amendment and given third reading.

The House then resolved itself into a committee on a similar act applicable to vegetables, eggs, food containers, firewood, and cement. Sir George Foster introduced an amendment providing that the act should not go into force for one year from the date of royal assent. After a brief discussion this bill was also reported and given third reading.

RETURNED MEN DRANK WOOD ALCOHOL; DIED

WINNIPEG, May 20.—Three returned soldiers, V. A. Knox, A. Holbrook, and A. V. Jensen are dead after drinking wood alcohol as a beverage. Holbrook was proprietor of a bath house on Main street, and in the course of a friendly drinking bout the three men apparently drank from a bottle of crude alcohol used for external purposes.

Knox came from Keltiler, Sask. and lived here after being invalided home from the front. Holbrook leaves a wife and seven children, including a son on active service; Jensen leaves a wife and child.

WEEK'S CASUALTIES

LONDON, May 21.—British casualties to the number of 36,677 have been reported in the week ending today. The casualties are divided as follows: Killed or died of wounds, 1,815; died of disease, 1,815; wounded or missing, officers 1,241; men 31,398. The figure last week was 41,612, the largest of any week since the German offensive began.

Cananda, One of Two Survivors of Twenty-three who Left Siberia For Canada

SEATTLE, May 21.—Bruce Lindsay, a Canadian miner who enlisted in the Canadian army here, after completing a 6,000 mile journey yesterday, from a platinum mining camp on the Anadir river, in Siberia, told recruiting officers he was one of two survivors of a party of twenty-three which left the Anadir settlement on January 6, to enlist. Several companions were killed by Russian bandits before they reached the western Siberian coast. Lindsay said and others met their death from exposure while crossing the Behring sea to Alaska on the ice.

ALBERTA'S WHEAT ACREAGE SHOWS A LARGE INCREASE

Hon. Duncan Marshall Predicts a Much Greater Production Than That of Last Year. Forty per cent more acreage in wheat than last year is reported by Hon. Duncan Marshall, whose previous estimate of a fifty per cent in-

crease in total farm acreage has been borne out by investigations through the province. The oat and barley crops are expected to make up the balance of the increase, there being a considerable amount of seeding to be done in some quarters. Up to May 24 will be oat-seeding season the minister says, and the indications are that farmers through-

out Alberta will make use of the intervening time to get in a further acreage. Mr. Marshall finds a likelihood of a short crop in the timothy crop, owing to lack of rain in some districts, but the grain crops are looking well, and the snow and rain storms of recent date are expected to work wonders in bringing the growth forward.

FARMERS ASKED TO SHIP GRAIN BEFORE JUNE

Government May Commandeer All Wheat After That Date

All the farmers of the province are being asked through their different organizations to ship whatever wheat they have on hand at the present, Secretary H. Higninton, of the United Farmers, has received a communication from R. McKenzie, secretary of the Manitoba Grain Growers' Association, stating that he circulate all the members of the U. F. A. McKenzie points out the necessity of marketing and getting into the country elevators any wheat they may have on hand. The letter mentions that even this is not done, the government may commandeer all the grain in the farmers' hands on June 1, and that they may not be allowed to much for it then.

PRODUCTION OF FLAX IMPORTANT AS WHEAT

Winnipeg Company is to Carry Out The British Government's Program

OTTAWA, May 10.—The colonial secretary has requested that publicity be given to the effect that an arrangement has now been made with the Wayland company, of Winnipeg, to carry out the British government's program for flax seed cultivation in Canada. It is represented that the present situation in Russia and the greatly increased national demand for aerographic fabric make it essential that every effort should be put forth to increase the cultivation of flax within the British empire.

Great importance is attached by the war office to the success of Colonel Wayland's efforts to the end that cultivation of flax seed in Canada receive all possible skill and care from the farmers. In the present circumstances the production of the seed is regarded as of equal importance with that of wheat or any cereal.

AUCTION SALE OF PURE-BRED BULLS AT LACOMBE

The tenth annual auction sale of bulls at Lacombe will be held at the fair grounds, May 20. The bulls will be judged in the forenoon and sold afternoon and evening. There are 28 entries. The breeds will be sold in the following order—22 Aberdeen Angus, 57 Herefords, two Red Polls and 127 Shorthorns. This is by far the largest entry for this event in the ten years since the sale was started and will be a good opportunity to get herd bulls of the very best quality, as well as good serviceable bulls for the range. With such a large entry, bulls will no doubt be sold to suit the purse of everyone.

The catalogue for this sale is arranged according to a new plan outlined at the annual meeting of the Alberta Cattle Breeders' association. While each man's entries are numbered consecutively for stabling convenience, the catalogue arrangement is by classes according to age. The prize winners in each class will be sold first, then the balance of that class before the next class is sold. The advantages of the new plan are that intending purchaser has a chance to bid on all the other bulls of a certain age if he is not able to purchase one of the prize winners. As secure wants a two-year old bull, for instance he has the advantage of having all the two-year olds brought forward in succession, and then can get through his buying more expeditiously. Those desiring catalogues of entries should write to E. L. Richardson, secretary of the Alberta Live Stock Association, Calgary.

WILL FORCE MARRIAGES OF ALL GERMANS OVER 20

LONDON, May 10.—The German commission appointed to examine the decline in the birth rate in Germany has reported a recommendation for the compulsory marriage of Germans before their twentieth year is passed, according to a dispatch to the Daily Express from Amsterdam. Financial assistance would be granted by the state, according to this plan, which provides penalties for those failing to comply. Provision is made for the punishment of married couples who remain childless.

A Truck for the Farmer

FARM equipment which will effect a time and labor-saving, and therefore a money-saving, must be carefully considered by every good farmer now-a-days.

The farm wagon, which for years was the most useful of all farm equipment, is now being replaced on the best farms by a sturdy, dependable motor truck. The truck will haul any farm product—fruit, grain, vegetables, stock, fertilizer, or wood—around the farm, or to the town or city many miles distant, in half the time, and at a much lower cost.

The Ford One-Ton truck is a rapid, economical and very servicable means of transport. One of these on your farm will save you weeks of time in a single season and will enable you to pass through a crisis of labor shortage with less difficulty.

The Ford truck is supplied as a chassis only. This permits you to select any of the many body styles especially designed for the Ford truck and already on the market. Thus you can mount the one which suits your individual requirements.

Price \$750 f.o.b. Ford, Ont.

FIFTH WINTER OF WAR IS INEVITABLE

BERNE, Switzerland, May 19.—In a speech before the Württemberg diet, Herr Haumann, one of the leaders of the Progressive party, said that a fifth winter of war was now inevitable. Germans must make up their minds to face disappointment, he said, instead of obtaining the victory hoped for during the summer.

Splendid Music at Chautauqua

Witepskie's Concert Orchestra Appears in Two Concerts on Fourth Day

WITEPSKIE'S CONCERT ORCHESTRA.

Witepskie's Concert Orchestra, which comes on the fourth day, is the greatest musical feature of the Chautauqua as well as one of the most popular Chautauqua attractions of the platform. For many years this prominent Chautauqua organization has occupied a conspicuous place in the musical world.

Meyer Witepskie, the director, is a young Russian whose merits as a musician, composer and director have attracted favorable attention in all the musical journals during the past few years. He has surrounded himself with a company of splendid musicians. Their long association with him on concert tours throughout the United States and Canada has resulted in their playing as one man, in perfect unison.

From the standpoint of glorious music their two programs on the fourth day are artistic triumphs. Nor do you have to be musically educated to appreciate their playing. Their concerts are for all the people—a splendid combination of popular, patriotic and classical music. In the evening Olive McCormick, prima donna soprano, will appear as soloist.

SUPPORT THE BOARD OF TRADE

The tenth annual meeting of the board of trade was held in the council chambers of Tuesday evening and was well attended by a fairly representative gathering of the citizens and the surrounding country. The president, H. P. May, in his review of the year's work commented on the successful efforts they had met with in inducing the government to reserve for the citizens and settlers a very beautiful lake in the Buffalo park which was formally opened last summer and named Mott's lake, in honor of one of Wainwright's pioneer citizens, Frank Mott, who was killed in France whilst serving with the 40th battalion. He also referred to the efforts the board had made in trying to get a rural phone system and regretted that the board had not been able to definitely have this very desirable work accomplished, but they had made considerable progress, notwithstanding the effects of the war and were hopeful that this matter would be brought to a successful conclusion this year. He also outlined what steps the board had taken re a municipal hospital.

On the whole the board, despite difficulties have had a very successful year and it only needs the hearty cooperation of every citizen this year to enable the Board of Trade to do a very useful and profitable season's work. The election of officers followed the president's address, and the meeting was then thrown open for general discussion.

One very good step was taken and that was the decision to have a regular monthly meeting of the membership of the board, when the executive will report on all work in hand for the previous month. We venture to predict that this will not only be a great stimulus to the board itself, but will generate a more intelligent and personal interest amongst their rank and file of its members and the citizens generally.

MORE FORD TRACTORS FOR ALBERTA FARMERS

OTTAWA, May 15.—The Canada Food Board has completed arrangements with Henry Ford and Son company, incorporated, to continue to furnish tractors at cost for the use of Canadian farmers. Farmers who wish to secure tractors should place their orders with their provincial department of agriculture, and until further notice such orders will be handled in the same way as formerly. Already considerably more than 1,000 "Fordson" tractors have been secured by Canadian farmers under the arrangement made by the Canada Food Board.

A TRIBUTE

The following poem was written by Nursing Sister P. S. Goodwin of the Australian Imperial forces whilst our respected townsman, once Corporal Standing M.M., was a patient in No. four general hospital, Camiers France and dedicated to him.

"To My Canadian Patient"
Now it's just 'cause your son's of the Empire
That have always aimed for the right,
And it's just 'cause your loving her freedom
That you fought with all your might.

And it is just 'cause you are now in khaki
And have won so much with your blood,
Just 'cause you are sports, when you are down and out,
Or up to your neck in mud.
You men of the Maple Leaf.

And it's just 'cause your tongue was so cheery,
And your talk and expression rings true,
That you win right through with a "Sure, that's so," a
So Canada, here is to you.

P. S. GOODWIN.

THE COAL SITUATION

Germany now has control of the best coal fields of France. Negotiations are nearly completed for the United States to furnish France with coal, which means that Canada will have to depend to a large extent on Western coal.

Last year there was 600,000 tons of Anthracite coal shipped from the States to the head of the Lakes. Indications are now that this supply will be entirely cut off which means that 600,000 tons of soft coal will be shipped East as it takes 1-1/2 tons of soft coal to equal a ton of hard.

This means that at least 3,000 cars of coal must be shipped East this year more than last year. With the car shortage caused by increased acreage in crop there is bound to be a coal shortage next winter, unless every consumer takes immediate steps to avoid it.

We have received a number of letters from the fuel controller asking us to cooperate in every way possible in this matter. We ask all that can possibly do so to order their winter supply of coal NOW.

The railroads that usually stock up in September have contracted with several mines for their entire output for immediate delivery so we can't guarantee quick service.

ORDER YOUR WINTER'S COAL NOW AND YOU WILL SAVE MONEY AND INSURE YOURSELF AGAINST FUEL TROUBLES THIS WINTER.

GOVERNMENT WILL INSPECT ALL COAL BEFORE SHIPMENT

Also Sanctions the Grant of \$25,000 To Advertise Alberta Coal

Just to make sure that the coal supplied by mines in Alberta to the outside markets is good coal, cars shipped out of the province will be inspected by government officials. This decision was reached at the operators conference in Calgary, from which John T. Stirling and seven fuel administrator, and seven Edmonton coal men returned today. The inspection will be applied, particularly to the coal going to Winnipeg, where there has been so much objection to the proposal to bring in semi-bituminous coal from Alberta and special pains will be taken to convince the Manitoba people that it is clean and good to burn. It is the intention of the government officials to make the examination of carloads before they leave and foreign matter, slag, and dirt in the coal will be strictly taboed.

Hon. C. R. Mitchell, representing the government, states that they had agreed upon the expenditure of \$25,000 in a publicity campaign to make the coal resources of the province better known, but the cooperation of the coal men would be necessary in addition.

STORES WILL CLOSE ON WEDNESDAY AFTERNOONS IN JUNE, JULY, AND AUGUST

Farmers are requested to note that on and after the first Wednesday in June until the last Wednesday in August the stores and business places of Wainwright will be closed. This move is made in compliance with the regular custom established in other years.
